**Homework: First Creation**

*Genesis 1:3-27*

Genesis is the book of beginnings. What do we learn about God's order from the creation account?

Why do you think God created each day in a particular order?

What do we learn about God from His creation of light?

How does God continually show Himself to you in "the heavens"?

What is significant about the order of things being created within day 3?

What does the phrase "and it was good" mean to you in this context?

What did you learn this past week about the creation of light on day one compared to the creation of the sun, moon, and stars in day 4?

As you read the accounts of day 5, what do you feel is the responsibility of a follower of God towards animals?

How have you seen culture distort that responsibility?

What is the difference between the animals of days 5 and 6?

In two weeks we will be addressing verses 26 & 27, what does God show us about the different perspective God places upon man?

What else can we learn about Creation from Genesis chapter 2?
